(a) runs, grouped by network
P = I
diag(1, 2)
opt1.25
opt5
|L| of the ODE, h ≈ 0.002
networks (filled: broken run; triangle: non-finite, drawn at 300)
(b) outliers (1% would be 200)
outliers per run (of 20 000)
P = I
diag(1, 2)
opt1.25
opt5
